NOTICE—

Owing to the extreme shortage of NEW automobiles and because of which we are NOT receiving used cars in exchange, and because of the fact that we desire to take care of our many used car patrons, we shall for the next FEW months purchase used cars that are in good condition and of late model.

We shall continue our policy of offering ONLY FIRST-CLASS USED CARS. WE SHALL OFFER a large selection for your approval. Our prices will continue to be NORMAL, despite the shortage. Our profits shall be small that we may not be classed as "PROFITEERS." With our buying ability, we expect to make purchases so that we shall be in a position to offer you automobiles at prices LESS than you can secure elsewhere. By not asking you EXORBITANT figures today we shall make friends for tomorrow. If you have a used car that is in excellent condition we will purchase it from you. If it is not first-class DON'T CALL ON US.

EXTRAORDINARY ANNOUNCEMENT.
MR. TOURIST, MR. AUTO BUYER.
You want a car now, NOT next spring, when new car dealers vaguely intimate they can make deliveries. Steel, coal and labor strikes make new cars a remote possibility only. We expected to complete our big new garage at Hill and Pico November 1, but will be delayed 40 days. We purchase a large stock of high class "dolled up" cars for our opening, November 1, which we are obliged to take delivery of. Vacant salesrooms are an impossibility, therefore we are going to move these cars quickly at bargain prices to save high storage charges and loss of sales. This opportunity may disappear over night if we locate temporary quarters, when prices will be advanced. Call or phone for demonstration. THE J. L. BLODGETT CO., 527 Consolidated Realty Bldg., 6th and Hill sts. 66992.

BIRDLAND.

The holidays are approaching and, as usual, we are prepared for them with a large stock of pets suitable for gifts.

SPECIAL.

Two hundred Bellnote Rollers have arrived, the first to reach California since the beginning of the war. Do not fail to hear these wonderful songsters and compare them with other "would-be" roller canaries. Better make reservations at once as our stock is limited. Twenty-five dollars while they last. After January 1 the price will go up. None of these birds wholesaled or exchanged. We also have a large stock of cheerful warbler canaries and a nice lot of grand-looking deep colored fancy canaries.

In fancy and aviary birds you will find our stock always the most complete, with a nice selection of pheasants, ducks and ornamental land and water fowl. We carry the largest stock of bird and animal cages on the Coast; also all kinds of foods, seeds and remedies for your pets. You will find goldfish and goldfish globes.

TALKING PARROTS.

The only firm in the country that has all the varieties in stock, such as the Panama parrots that speak for themselves; the double yellow-heads, or human talkers; the cute dwarf parrots and all the other kinds. Every bird guaranteed to talk.

DOGS.

Our dog department at 216 Mercantile place offers nice puppies of many different kinds; a full line of kennel supplies such as collars, harness, etc., and all the standard remedies and foods.

MAIL ORDERS.

Mail orders receive careful attention. We ship to all parts of the country. Send for copy of "Birdland News."

CIGARETTE PRICE IS SOON TO SOAR.

[EXCLUSIVE DISPATCH.]

NEW YORK, Nov. 1.—Edward Wise, chairman of the board of the United Cigar Stores Company, announced today that an upturn in tobacco prices might be expected within a short time.

"It is not unlikely," he said, "that prices of cigarettes will advance steadily and will not return to the old selling price for several years."

This advance, he said, would be made necessary by the rise in leaf tobacco which is at the highest price in the history of the industry. On this basis there would be no increase in the earnings of tobacco companies manufacturing finished products presuming, of course, that the increase is only to offset additional cost.

Mining Conference in St. Louis.

[BY A. P. NIGHT WIRE.]

ST. LOUIS, Nov. 1.—It is proposed that the mining conference be held in connection with the American Mining Congress convention, the National Gold Conference and the National Conference of War Minerals Producers, here, November 17 to 21, inclusive. Invitations to the industrial conference were sent tonight to Governors of all States, to national officials and to State and national commercial bodies.

DYING MOTORMAN SAVES PASSENGERS.

[BY A. P. NIGHT WIRE.]

EDGEWATER (N. J.) Nov. 1.—A dying motorman's last act today was to apply the brakes to his car lest it coast a precipitous incline on the Hudson Palisades and kill thirty passengers. Thrown from their seats by the sudden stopping of the car, the passengers found the motorman, Alexander Rabb, dead from heart disease. The car had stopped on the edge of the precipice.

SECOND BALL GAME TODAY.

Weaver's All-Stars and Killefer's All-Stars will meet at Washington Park in their second game today. The contest will start at 2:30.

Babe Ruth, who played first base yesterday, will pitch for the Weaver club this afternoon. His fame as a pitcher ranks second only to that which he has gained as a home-run hitter. Opposing him will be Jim Scott, formerly of the White Sox, who has been signed by Killefer.

Killefer thinks that Scott will be able to stop Ruth's home-run career for one afternoon at least, but the records show that they all look about the same to Babe.

TELLS CHICAGO SHE NEEDS TO SPEED UP.

OTHER CITIES, MORE PROGRESSIVE, AFTER TRADE, DECLARES EDUCATOR.

[EXCLUSIVE DISPATCH.]

CHICAGO, Nov. 1.—Unless Chicago moves forward it will lose its trade and its position as the greatest city in the Middle West, was the warning given today before the paincipals meeting in Fullerton Hall, Art Institute, by Charles H. Wacker, chairman of the Chicago plan commission.

"I have recently visited the cities of Cleveland, St. Louis, Kansas City, Detroit and Cincinnati," said Wacker, "and learned some interesting things. Detroit openly boasts that she will pass us in ten years and St. Louis has appropriated $95,000,000 for civic improvements. Kansas City claims it is the logical city to handle the business of the Southwest and it is making plans to do this, and unless Chicago moves forward it will lose all this trade."

Wacker then explained to the educators the plans of the commission which provide for the opening and widening of Western and Ashland avenues and Robey street, North and South, and the opening of Ogden avenue to Lincoln Park.

APPEALS FROM COAL CONFISCATION START.

[BY A. P. NIGHT WIRE.]

DES MOINES, Nov. 1.—Appeal that the order to railroads to confiscate coal be modified today poured into the office of Charles Webster in charge of fuel distribution in Iowa. Many of the messages said the cities from which they were sent were practically without fuel.

Mr. Webster sent a letter to Walker D. Hines, Director-General of Railroads, asking that the order be modified and suggesting immediate curtailment of both freight and passenger service to the barest necessities.

Later reports today served to verify statements of union leaders and operators that the strike call had been observed generally in Iowa.

Part of the Second Infantry Regiment of the Fourth Division, stationed at Camp Dodge, began to entrain late today, it was said, for the coal fields of Ohio and Kentucky. The remainder is to be moved in a few days, it was said.

INJUNCTION SILENCES LEWIS AND FOLLOWERS

[BY A. P. NIGHT WIRE.]

INDIANAPOLIS, Nov. 1.— With officials of the United Mine Workers of America silent as a result of the restraining order issued yesterday in Federal court, there were no developments of consequence in Indianapolis today in connection with the walkout of bituminous coal workers.

John L. Lewis, acting president of the miners, tonight left for his home in Springfield, Ill., to spend Sunday with his family, and other officials and members of the executive board left for their homes.

Hundreds of telegrams were received at miners' headquarters today from bituminous coal fields of the country, but, due to the restraining order, officials could not divulge their contents.

AMERICANS PREVENT RUSSIAN GUN THEFT.

SMALL GUARD OF YANKEE SOLDIERS KEEPS KOLCHAK RIFLES FROM SEMENOFF.

[BY CABLE AND ASSOCIATED PRESS.]

VLADIVOSTOK, Sunday, Oct. 26. —A train with part of a consignment of 68,000 rifles recently shipped from America for Admiral Kolchak was held up at Tchita, Trans-Baikalia, on October 24, by General Semenoff, the anti-Bolshevik leader in Siberia.

General Semenoff demanded that 15,000 rifles be delivered to him by 11 o'clock on the morning of October 25, or force would be used to obtain them. The lieutenant commanding the train guard of fifty Americans communicated with Maj.-Gen. William S. Graves, commander of the American Expeditionary Forces in Siberia, and received an order under no conditions to turn over the rifles.

Although no word has been received at American headquarters at Vladivostok regarding events at Tchita, since Semenoff's time limit expired, Japanese headquarters last night, notified Gen. Graves that advices from Tchita—the Japanese quarter guarded sector—were that through Japanese offices the train had not been molested and had proceeded toward Omsk.

The last word from the American guard was that Gen. Graves' instructions had been received, and that the Cossacks would need to use force to get the arms.

As compared with the small American guard, Semenoff had several thousand Cossacks with artillery and armored trains at Tchita.

DIFFICULTIES BESET ALL LIQUOR DEALERS.

PERMITS ISSUED MUST BE ON APPROVAL OF REVENUE COMMISSIONER.

[EXCLUSIVE DISPATCH.]

WASHINGTON, Nov. 1.—After today, and during the duration of war-time prohibition, permits to use for manufacturing purposes or to sell for nonbeverage purposes distilled spirits and wine will not be issued except with the approval of the Commissioner of Internal Revenue. Applications for such permits must be filed on amended form No. 737 with the prohibition enforcement officer of the State in which the business is to be conducted.

Unless the product in which the spirits or wines are to be used is a United States pharmacopoeia or national formulary preparation, sworn statements must accompany the application affirming that the product will neither be used nor sold for beverage purposes. The prohibition enforcement officer will note his recommendation in the appropriate space and the application will be sent to the commissioner. A bond sufficient to insure compliance with the terms of the permit must accompany each application.

Federal prohibition enforcement officers will be appointed by the commissioner under authority granted him in the National Prohibition Act. Collectors will act until such officers qualify and enter their duties.

Holders of permits issued prior to November 1, 1919, must give a new bond not later than December 1, 1919. Unless bonds are furnished the permits expire at that time. Permits issued prior to November 1, 1919, must be renewed when directed by the commissioner and cease to be effective if the holder fails to file an application on amended form No. 737 when called upon by the prohibition enforcement officer. Holders of these permits when so called upon may continue to operate until their application for a new permit is approved. Permits are nontransferable; may be revoked or canceled in whole or part at any time and must be conspicuously posted in the place of business.

Pharmacists holding permits may retain alcohol medicated according to standards of the internal revenue bureau in quantities not exceeding one pint and sell spirits and wines on physicians' prescriptions.

Duly licensed physicians may obtain permits without giving bond for the purchase of not more than two quarts of alcohol or alcoholic preparations during the period of one year by filing form No. 737 and executing a sworn statement that such alcohol or alcoholic preparation is to be used in the course of their professional practice, but if more than two quarts are purchased bond will be required. Physicians and pharmacists must keep records.

JENKINS RANSOM PAID WITH HIS OWN NOTES.

FIRST OFFICIAL STATEMENT OF CONSULAR AGENT'S ABDUCTION MADE.

[BY A. P. NIGHT WIRE.]

WASHINGTON, Nov. 1.—William O. Jenkins, American consular agent at Puebla, Mex., gave his personal note, indorsed by five responsible citizens of Puebla and Mexico City, to procure his release by bandits who kidnaped him October 19. The full amount of the ransom included also an agreement that the bandits keep $25,000 worth of property stolen from Jenkins's hacienda.

The first payment on the ransom consisted of 24,000 pesos and two drafts for $5000 each in American gold, the balance being covered by the note.

These facts are disclosed in a statement which the American Embassy in Mexico City has been authorized to make public and which follows:

"American Consular Agent Jenkins, who was abducted from his house in Puebla on the evening of October 19 after his abductors had taken approximately 5000 pesos in gold from his safe, was released Sunday afternoon, last, near the Hacienda Acheverra, several miles south of Puebla, and two hours later was placed under the care of physicians in Latin-American Hospital in Puebla."

LOS ANGELES FOREST MEASURE DISCUSSION.

[EXCLUSIVE DISPATCH.]

WASHINGTON, Nov. 1.—In the hearing before the Public Land Committee on the bill to give Los Angeles additional rights of way and power sites as well as reservoir sites in the Angeles Forest Reserve, Congressman Kettner opposed those portions of the bill which in his opinion interfered with constituents from his district. He pleaded with the committee to recognize the rights and opportunities of others besides the city of Los Angeles. After he had finished his statement W. B. Mathews continued his statement in behalf of the bill as the special attorney for the city of Los Angeles. When the committee adjourned for the day at 3 o'clock he had not finished and will resume his statement Monday.

WAR ORGANIZATION TO ENTER POLITICS.

[BY A. P. NIGHT WIRE.]

WASHINGTON, Nov. 1.—A charter was issued here today to the Rank and File Veterans' Association, composed of privates and noncommissioned officers who served in the world war. Commissioned officers are not eligible to membership.

The organization plans to establish camps in all the larger cities. Officers announced that it would advocate a year's pay for all world war veterans, oppose universal military training and take an active part in politics.

SCOTTISH NOBILITY SLAIN BY BOLSHEVIKI.

[BY CABLE AND ASSOCIATED PRESS.]

LONDON, Nov. 1.—Baron and Baroness Woerman, nephew and niece of the late Lord Armitstead, were murdered by the Bolsheviki in Riga last May, according to news reaching the Armitstead family at Dundee, Scotland. The advices said that a grand nephew of Lord Armitstead, John Cecil Armitstead, was shot in March after having been in prison three months.

COURTS MUZZLE STRIKE INCITERS

Mouthpieces are Disconnected from Coal Men by Orders.

Silence Reigns in Headquarters of Miners' Union.

President Lewis Fades from Scene and Goes Home.

[BY A. P. DAY WIRE.]

INDIANAPOLIS, Nov. 1.—From the scene of most activity in connection with the strike of approximately 400,000 bituminous coal miners, headquarters of the Mine Workers of America here has been transformed in the last twenty-four hours to perhaps the most lethargic.

The lack of activity, however, is not due to disinterest in the strike, but is the result of the sweeping provisions of the restraining order issued yesterday by United States District Judge Anderson, compelling the miners' officials to refrain from taking any part in conducting or encouraging the strike of the miners, which, according to dispatches, has been carried out almost to a man among the union soft coal workers of the country.

EFFECTUALLY SILENCED.

Miners' leaders at headquarters thus far, apparently have obeyed the restraining order to the letter. They not only decline to give out statements and reports concerning the strike, but will not discuss their plans for combatting the action of the government in the courts, and unless the restraining order is violated by some of those against whom it is directed, miners headquarters probably will remain quiet, at least until the government's injunction proceedings again come up in the Federal court November 8.

The restraining order secured yesterday is the first step in the government's plan to render the strike ineffective. On November 8, a temporary injunction will be asked, government officials pointing out that the first order was merely an emergency measure intended, not to prevent individual miners from quitting work, but to prevent organized direction of the tie-up. The order will leave the miners free to exercise their own judgment in quitting or remaining at work and also will give the miners' leaders time to prepare to present their side of the case to the court. If the temporary injunction is granted the government later will ask that it be made permanent.

READY FOR ENFORCEMENT.

Enforcement of the restraining order has been left in the hands of L. Ert Slack, United States District Attorney for Indiana. Government authorities do not contemplate that any attempts at violation of the court order will be made, but are taking no chances.

The only known steps the miners have taken toward fighting the government in the courts is the retention of Henry Warrum, an Indianapolis attorney. It was said that Alton B. Parker, of New York, probably would be engaged to assist with the mine workers' case.

The executive board of the union wound up its last batch of routine business this morning and the members started at once for their homes. John L. Lewis, acting president of the union, said he expected to leave for his home in Springfield tonight and hoped to remain there several days.

The silence policy imposed on union headquarters by the Federal District Court was rigidly followed and as a result there was equal lack of activity at the office of L. Ert Slack, United States District Attorney, in whose hands reposes the enforcement of the restraining order.

PORTO RICANS SUFFER FROM NEW YORK STRIKE

[BY A. P. NIGHT WIRE.]

"It is up to the United States to hurry along food," he said. "The officials had to ration the people."

FOR NEW AUSTRALIAN LINE

J. M. Hunter, agent-general of Queensland, Australia, who is in Los Angeles to discuss with shipping men the establishment of a direct line of freight and passenger steamships, with Brisbane indicated yesterday that Los Angeles has a good chance to be selected as the American terminus for the new line.

"Los Angeles and Brisbane are closer than the present route from San Francisco to Sydney," he said, "and we believe that the establishment of a line between these two ports would save us several days in the trip. There is no reason why the northern services cannot be maintained, but Brisbane is anxious to have a direct line of its own with the American Pacific Coast and the position of Los Angeles is very favorable for the American terminus. The railway connections here are particularly good because products brought from Australia can be readily distributed after landing here.

"We are very anxious to co-operate with the people here and will give every assistance in establishing the new steamship line."

Mr. Hunter is planning to discuss the matter on Monday with representatives of the Chamber of Commerce. He will be here until Tuesday.

He said that the need of a new line is emphasized by the fact that passenger bookings from Australia are being made weeks ahead and that freight shipments also are being held up because of lack of cargo space.

"Many products from this section of the country," he added "will find a ready market in Queensland and we have many products that we want to ship to your country."

Mr. Hunter is a Cabinet minister of Queensland and vice-president of the executive council. He plans to investigate irrigation systems here and will visit Chicago to inspect the meat-packing industry, later going to New York and from there to London in the interests of Queensland trade. He is accompanied by his wife and daughter.

Taking Care of the Overflow

—The GRAND CENTRAL PUBLIC MARKET, Inc., by their consistent maintenance of the original market idea—which is not only to create a market center, but to sell in that market only the cleanest and freshest of goods at right prices—finds, after two years, that the amount of space available on the main floor is inadequate to care for their ever-increasing volume of business.

—Fortunately, however, the market is equipped with a basement, size 190x340, which is now being converted into a fully equipped market addition and which will help to a great extent to care for the overflow.

FOREMAN SAYS IT IS WONDERFUL

Mahoney Never Expected to Regain Former Strength.

Is Now Able to Be Back at Work.

"Tanlac Is Grandest Medicine in World," He Says.

Many wonderful indorsements have been given Tanlac, but, the statement made October 9th by James Mahoney, of 22 East 15th St., Los Angeles, Cal., is so remarkable as to be almost incredible.

Mr. Mahoney, however, is a man of unquestioned integrity and has been foreman at the Richards-Neustadt Construction Co. ten years. His neighbors have corroborated his remarkable statement in every detail and will do so again if called upon.

"It was being talked among my friends," said Mr. Mahoney, "that I was going to die, and I don't believe anyone ever had a much closer call. Closely following an injury to my back, caused by lifting some steel last July a year ago, my whole system seemed to give way. My stomach commenced hurting me terribly and I suffered from gas and indigestion. There seemed to be a lump in my stomach and I could not eat a thing without intense pain afterwards. My appetite left me entirely and I got so weak I could not even lift ten pounds. Then I became constipated and my kidneys got out of order and disturbed me so at night I could not sleep sound. I was in misery all the time and so weak I could not lift my feet to go up the steps. I could not straighten up for the pain in my stomach. Before these troubles started I weighed one hundred and forty-five, but dropped down until I weighed only sixty-five pounds, and if there was ever a living skeleton I was. I could hear my friends, who came in to see me, say: 'Poor Jim, he can't last much longer,' and I had no hope myself of ever getting up. In spite of all that could be done I kept getting worse. That lump-like feeling in my stomach seemed to get larger and the pain more intense. Finally I was told nothing more could be done except to operate and I was too weak to stand that.

"One day a friend, who had been coming to see me often, told me how Tanlac had helped his daughter and urged me to try it. At first I refused, as my wife was opposed to anything except prescribed medicines. But one day this friend offered to go and get me a bottle of Tanlac with the understanding that no one else know about it. Well, I started taking it and by the time he brought me the third bottle I was feeling better. I stopped everything else, kept taking Tanlac and slowly improving. I soon noticed the pain in my stomach easing up and that lumpy feeling began to leave. I got to eating something and then commenced getting back my lost weight and strength. I kept taking it until I used twenty bottles, and as a result I am in better shape than I was for years—even before I was taken sick. I now weigh one hundred and thirty pounds, so you see my weight has exactly doubled. I am working every day and can do the heavy lifting just the same as I ever could. I am not bothered any more with my kidneys or constipation and I sleep like a top every night. My food tastes good and my appetite is simply fine. My wife now thinks just as I do, that Tanlac is the grandest medicine in the world. I will praise it as long as I live, and I never expect to be without it."

TANLAC is sold in Los Angeles, Pasadena and San Diego by The Owl Drug Co. —[Advertisement.

To Help Nature Shed a Bad Complexion

Beauty devotees are enthusiastic over the beautifying qualities of mercolized wax. Nothing discovered within recent years accomplishes so much, so quickly, without harm, at such small expense. The principal reason for its wonderful merit is that it works in harmony with physiological laws. Instead of hiding complexion defects, it removes them. It actually takes off the aged, faded, sallow, freckled or blotchy surface skin—gently, gradually, causing no inconvenience. It is Nature's way of renewing complexions. When the natural process is retarded because of deficient circulation or nerve tone, mercolized wax comes to the rescue and hastens the skin shedding. The new complexion which appears is a natural one, youthful, healthy, exquisitely beautiful. If you've never tried mercolized wax, get an ounce of it at the drug store, use at night like cold cream, washing it off in the morning.—[Advertisement.

SOLDIERS SCORE IRISH SLACKER.

De Valera is Denounced by Returned Veterans.

Long Beach Post Calls Upon Citizens to Shun Him.

Thanks "Times" for Article Exposing Disloyalty.

Denouncing Edward de Valera, world leader of the Sinn Fein and so-called "president of the Irish republic," as a slacker and false patriot, Kitchener Post of World War Veterans, Long Beach, an organization of veterans of all the Allied nations, yesterday made public resolutions, unanimously adopted, that call on the people here to show during De Valera's coming visit that "there is no welcome to slackers in a 100 per cent. democratic community." The post also published resolutions decrying Bolshevism.

At a meeting, October 29, when the resolutions were presented, an editorial from The Times of that date, headed "No Welcome for the Disloyal" and directed against De Valera, was read from the chair and unanimously indorsed, as also was a resolution of confidence and thanks to The Times for the "outspoken and truly American sentiments" expressed in the editorial.

Kitchener Post is commanded by Lieut.-Col. Edward P. Bailey, M.D., 537 East Ocean avenue, Long Beach, and Lieut. Paul Harris, 1544 East First street, Long Beach, is adjutant.

TEXT OF RESOLUTIONS.

The resolutions dealing with De Valera read as follows:

"Whereas, we feel that the whole world is developing toward a clearer apprehension of its interracial and international obligations; this is particularly so regarding the highest interests of loyalty between the nations of the Anglo-Saxon race who fought together to rescue the world; and,

"Whereas, a certain fugitive from British justice—De Valera—is about to visit Southern California, and, as many residents of this great country, vibrating with the spirit of patriotism, are apt to be misled through a mistaken idea of loyalty to extend or join in a welcome to this slacker, we feel it our duty to make known our sentiments and warn the citizens of the true character of this false patriot.

"We, the men who have served and suffered, ask that the people maintain the dignity of this glorious land of the brave and the true, and show that there is no welcome for traitors in a 100 per cent. democratic community.

"Be it therefore resolved that a copy of this resolution be sent to the city authorities and press of this city and Los Angeles, to the Congress of the United States and to the British Ambassador at Washington."

AGAINST BOLSHEVISM.

Following is the text of the resolutions dealing with Bolshevism:

"Whereas, there has been a dangerous propaganda spread in our country known as Bolshevism; and,

"Whereas, this doctrine means the death of orderly government and the end of individual opportunity and is an assault upon the sanctity of the home;

"Be it resolved by the official council, Kitchener Post, World War Veterans, duly assembled in legal meeting, that we hereby denounce and renounce this insidious and sinister propaganda; that we stand for living wages and fair treatment for all of our men and women in the office and the shop and on the farm, but that we condemn violence, anarchy and the use of all forms of destruction which would undermine our social order."

CLAIM BIG BUILDING GRAFT AT ARMY CAMPS

CONGRESSMAN WILL INTRODUCE BILL MAKING WARTIME SWINDLES TREASON.

[BY A. P. NIGHT WIRE.]

COLUMBUS (O.) Nov. 1.—Astounded by the mass of evidence tending to show that the government had been defrauded of thousands, if not several millions, of dollars in the construction of Camp Sherman, Congressman Lewis C. McKenzie, Illinois, chairman of the sub-Congressional committee which is investigating the camp construction, declared tonight that he will introduce a bill in Congress making it treason to defraud the government in time of war.

Chairman McKenzie said he was certain before entering upon the inquiry that the government had been defrauded in the construction of cantonments, but that he never expected it to reach such gigantic proportions as was indicated by testimony given before the committee here. Congressman McCullough said he is certain the committee will furnish the Department of Justice ample evidence on which to base criminal prosecutions. The committee concluded its hearings here this evening and will go to Camp Sherman Monday and to Camp Grant, Illinois, November 10.

That fifty Chicago professional crap shooters obtained positions as plumbers at Camp Sherman and were paid regular plumbers' wages of $8.25 per day, although they spent all their time "rolling the bones," was testified to today by Ben M. Clark, time-keeper for contractors building the Camp Sherman cantonment. The crap shooters made as much as $100 per day at their profession, Clark said.

He testified hundreds of men spent most of their time shooting craps and playing poker.

Though furnaces for heating soldiers' barracks were on hand early in the fall, George Cooper, general foreman of the furnace gang, said he could not obtain orders to install the furnaces until late in November.

WHITES SUCCUMB TO BLUES IN POLO GAME.

In what is declared to have been one of the best games played on the Midwick Field in years the Blues defeated the Whites in the opening game of the Southern California polo season yesterday. The Blues won by a score of 13 to 5, though the Whites went into the struggle favorites. The play was fast from beginning to end, and some very spectacular shots resulted. The horses showed far better form than had been expected on such short notice.

The teams lined up as follows: Blues—Malaby, No. 1; Greer, No. 2; Col. Hampton, No. 3; J. B. Miller, Jr., back. Whites—Van den Heubel, No. 1; Neustadt, No. 2; Spalding, No. 3; Brooks, back. J. E. Baxter refereed.

CREIGHTON-INDIANS PLAY A TIE GAME.

[BY A. P. NIGHT WIRE.]

OMAHA (Neb.) Nov. 1.—Creighton and the Haskell Indians played a 6-to-6 tie here today. The Indians outplayed Creighton during the first half, in which Anderson scored their touchdown, but the locals came back strong in the second half and completely played the Redskins off their feet. Long went over for Creighton's touchdown in the third quarter.

DECRY DE VALERA VISIT.

Resolutions of protest against the coming of Edward de Valera to Los Angeles were unanimously adopted last night at a joint meeting of Loyal Orange Lodge, Purple Star 252, and Ladies' Lily Loyal Orange Lodge, at a meeting held in the Walker Auditorium building. The resolutions are as follows:

"We the members of Purple Star Lodge and Ladies' Lily Lodge and friends, in meeting assembled, do earnestly protest against the coming of De Valera into our midst. He is a traitor to the cause of freedom and a fugitive from justice. We, as American citizens, know that the people of Los Angeles when they learn De Valera's true character will not welcome him to this city, but will give this traitor and a leader of the Sinn Fein who openly espoused the cause of the Germans in the great war, the reception such a man deserves."

J. Ford, the chairman of the evening, told how the Los Angeles Examiner is exploiting the coming of De Valera and called attention to the fact that the Examiner, with all other Hearst papers, had been barred as disloyal from all parts of the British Empire. Resolutions were also unanimously adopted commending The Times for its editorial stand in presenting the facts of the career of De Valera.

The meeting of the two lodges last night was in celebration of the 314th anniversary of the discovery of the Guy Fawkes plot to destroy with gunpowder the British Houses of Parliament. A patriotic address on American citizenship was given by J. M. Neel, and Miss Geraldine Mortimer, daughter of C. White Mortimer, the British Consul, told of the reception to be given next Saturday evening in honor of Sergt. Rayfield of Los Angeles, who won the Victoria Cross.

The entertainment included piano selections by Miss Jackson, banjo solo by Mr. Bell, Scotch dancing by Baby Woods accompanied by Mr. Frazer on the bagpipes, violin solo by Miss Coth, saxophone solo by Mrs. Cleta Perkins, and a sketch by George Beach and Nellie Brough, of which a feature was the excellent whistling selections by Miss Brough.

SAYS THAT FAMILIES OF STRIKERS STARVE.

[BY A. P. NIGHT WIRE.]

PITTSBURGH, Nov. 1.—W. Z Foster, secretary of the union's Steel Strike Committee, told the Pennsylvania Federation of Labor, in session here today, that the "steel strike is not lost, the steel mills throughout the country are tied up and the bottom has fallen out of steel production."

Steel operators met Foster's statement with the assertion that mill operations had improved during the week and more steel had been made than at any time since the strike was declared.

In appealing to the committee for funds for the strikers, Foster said that more than 300,000 men were out and that the families of striking steel workers were facing starvation and crying for bread.

President James E. Maurer, who opened the convention, said, as president, he "was willing to go through any programme—we must do something and must be active."

Delegates were invited to send resolutions for action by the convention tomorrow, when, it was stated, the business would be wound up.

We had hoped to be able to pull through the short season for milk without raising the price, realizing that the good people of Los Angeles are having a hard time to pay the prices asked for nearly all foods and that we should hold down our portion of the supply if possible; but with the insistent demands of the milk producers that, with the scarcity of farm labor even at the advanced wages now offered and the higher prices for nearly all dairy feeds, they must get more for their milk, coupled with the higher prices asked for everything entering into the handling and delivery in the city, has compelled us to advance the price of milk and cream for the winter months.

To those who are not already informed we wish to advise them that it is generally conceded by eastern city health officials that Los Angeles has the purest milk supply of any large city in the country. Also that even with this advance we are still selling milk at a lower price than eastern cities have.

We wish to assure our thousands of customers that we value the splendid patronage they have given us—many for more than a quarter of a century—and that we will again lower the price as soon as conditions make it possible for us to do so.

URGE CONGRESS TO SELL FLEET.

National Bodies Recommend Far-Reaching Policy.

For Disposing of Every One of the 2000 Ships.

America Should Retain All Over 2000 Tons.

[EXCLUSIVE DISPATCH.]

WASHINGTON, Nov. 1. — The council of the National Merchant Marine Association, at a meeting here yesterday, unanimously adopted resolutions calling on Congress to enact legislation for the prompt sale of government-owned vessels. The association recommends that vessels of under 6000 tons deadweight be sold with privilege of transfer of flag, and that the larger ships be sold to American individuals and firms only. It is also recommended that the entire fleet be sold within a period of two years.

Copies of the resolutions were immediately presented to the House Committee on Merchant Marine and Fisheries, which is preparing a general ship policy bill, and will be incorporated in a bill to be introduced in the Senate next week by Senator Joseph E. Ransdell of Louisiana, president of the association.

It was the unanimous opinion of the council that the Shipping Board should be directed to dispose of the entire government fleet, including the vessels obtained from Germany and those in the process of construction, and that purchasers of the larger vessels whose sale is restricted to Americans, should be required to pay 25 per cent. cash, the balance of the purchase price to be met by deferred payments over a period of ten or fifteen years, these deferred payments to bear 5 per cent. interest, secured by first mortgages.

FOR ALLOCATIONS.

The resolutions provide further that after the sale of a portion of the larger vessels the unsold remainder shall be allocated by the Shipping Board, as far as practicable, to those who have purchased, on the basis of payment of a commission to the operating firms or corporations and payment by the operators of the proportion of the consolidated earnings of the ships owned by the operators and the government-owned tonnage, which the operated tonnage bears to the total tonnage operated by such firms or corporations.

The association also recommends that those who purchase and operate ships in the foreign trade under this plan shall be exempt, in respect to the earnings of the ships, from all Federal excess profits taxes for a period of from ten to fifteen years, provided they be permitted to charge off 10 per cent. of the net earnings of the ships on account of depreciation and deduct such amount in their next returns as operating expenses. The amount of the earnings equivalent to the excess profits tax that would be payable is to be invested in new tonnage from American shipyards.

Finally, Congress is called on to enact special legislation to assist existing passenger lines in the construction and operation of new passenger tonnage of the highest class and latest design and type and to inaugurate and develop additional passenger and freight lines on routes which is is desirable in the national interest that direct passenger and freight service should be established.

A Coated Tongue? What it Means

A bad breath, coated tongue, bad taste in the mouth, languor and debility are usually signs that the liver is out of order. PROF. HEMMETER says: "The liver is an organ secondary in importance only to the heart."

We can manufacture poisons within our own bodies which are as deadly as a snake's venom.

The liver acts as guard over our well-being, sifting out the cinders and ashes from the general circulation.

A blockade in the intestines piles a heavy burden upon the liver. If the intestines are choked or clogged up, the circulation of the blood becomes poisoned and the system becomes loaded with toxic waste, and we suffer from headache, yellow-coated tongue, bad taste in mouth, nausea or gas, acid dyspepsia, languor, debility, yellow skin or eyes. At such times one should take castor oil or a pleasant laxative. Such a one is made of Mayapple, leaves of aloe and jalap, put into ready-to-use form by Doctor Pierce, nearly fifty years ago, and sold for 25 cents by all druggists as Dr. Pierce's Pleasant Pellets.—[Advertisement.

INQUEST TOMORROW OVER AUTO VICTIMS.

DRIVER OF CAR WHICH KILLED TWO, HURT FOUR, IS HELD BY POLICE.

Coroner Hartwell will hold an inquest tomorrow to determine the cause of the collision of two automobiles at Washington street and Vermont avenue early yesterday morning, in which Mrs. Omar Stanford, 1610 Childs avenue, buyer for a local department store, and Rudolph Lewis Check, superintendent of the Llewellyn Iron Works at Torrance, were killed and four others were injured. Pending the result of the inquest, J. C. Hatlet, driver of the automobile which struck the Check machine, was held at the City Jail on suspicion of manslaughter.

The accident occurred shortly after 3 a.m. Mr. Check's car was proceeding east on Washington street. Mr. Hatlet was driving north on Vermont avenue. Both automobiles were traveling at high speed, according to the police, when they crashed together. The impact was so great that the noise could be heard some distance from the scene of the accident and both machines were totally wrecked.

Mr. Check and Mrs. Stanford were instantly killed. Miss Pearl Stanford, 123 South Grand avenue, sister-in-law to the dead woman, and J. J. Kaspar, companion of Mr. Check, who lived with him at Torrance, were in the machine driven by Mr. Check, but weer both hurled far from the wreck and suffered only lacerations of the face. They were treated at the Receiving Hospital.

Mr. Hatlet and Sam Rorfro, of the King Edward Hotel, Fifth and Los Angeles streets, who was with him, were only slightly injured. They were also treated at the Receiving Hospital.

"SURPRISING CARLOTTA."

Judge Willis Brown's photoplay, "Surprising Carlotta," which proved a novelty of the past week on the local screen, will be continued at the Alhambra Theater until next Sunday. The picture is notable for the human interest in the plot, and the understanding of child character which is revealed. Ruth Hampton, who is featured in the production, has won a place for herself among the newer stars of the photoplay.

DIVORCE STUDY AT BURBANK.

A striking study of the divorce evil is promised by the new stock company at the Burbank Theater this week in their offering, "The Divorce Question." The company opened their season of plays last Sunday, and are producing a number of dramas dealing with problems of the day. Improvements have been made in the casting of the productions, and a convincing presentation of an interesting subject is forecast.

GOVERNOR TO SPEAK AT PUENTE FIESTA.

[LOCAL CORRESPONDENCE.]

PUENTE, Nov. 1.—Plans for the big Victory Day Fiesta were virtually completed today when the committee in charge announced that Gov. William D. Stephens would be present and deliver a speech at 11 o'clock the morning of the celebration, November 11. This fact was assured when the committee received word from the Governor to that effect.

The Victory Day celebration by the citizens of the valley has a double purpose, a celebration in honor of the returned soldiers and sailors and a day of rejoicing because of the great prosperity of the district.

TO BUILD FACTORY.

[EXCLUSIVE DISPATCH.]

RIVERSIDE, Nov. 1.—Papers were executed today for the transfer of land at the corner of Blaine street and Park avenue on which a concern capitalized at $100,000 will erect a factory for the manufacture of toy balloons and other rubber novelties.

Machinery for the enterprise has been ordered. Donald Fullerton, the general manager, states that more than thirty-five employees, mostly women and girls will be required to operate the establishment.

THE COMPANY HOLDINGS

APEX CENTRAL COMPANY consists of 270 acres. It is located near Santa Paula and is practically surrounded by producing wells. Ventura County produces the best grade of oil for gasoline in the State, and old settlers of California, that have followed the oil industry, will tell you of more than one Company that Ventura oil has put on the paying side of the ledger. We believe that the most remarkable wells in the State, or, in fact, in the United States, are located in Ventura County. They produce the highest gravity of oil known to exist, which is around 52 gravity.

REASONS WHY

This Company was named the APEX CENTRAL OIL COMPANY because it is located on what is known as the apex of the dome where two anticlines merge, which, according to geologists' reports, means that oil will be found in much larger quantities, as well as a higher grade of oil.

PRODUCING OIL NOW

The APEX CENTRAL OIL COMPANY is a going concern, producing oil today and every day; has two wells drilling at about 1100 feet; has sites laid out for an extensive drilling campaign.

YOUNG MAN UNDER ARREST AT ONTARIO IS PUZZLE TO OFFICERS.

[LOCAL CORRESPONDENCE.]

ONTARIO, Nov. 1.—Arrested by Ontario and county officers early today while sleeping peacefully in his bed after he had shot and killed Juan Sanchez, in whose company he had been spending a social evening, Andreas Trejillo, aged 20, still refused to offer any explanation of his act in his cell in the city jail tonight.

Trejillo was formally charged with murder when Mrs. Juanita Sanchez, widow of the slain man, appeared before Judge George R. Holbrook to swear to the complaint this morning.

Trejillo had beens pending the evening at a tent-house occupied by Mr. and Mrs. Sanchez and Mr. and Mrs. Cleo Baltierras, near the big plant of the Italian Vineyard Company to the east of Ontario. The five had been listening to music from a phonograph. After bidding the others good night, Trejillo walked around behind the house and firing through its canvas walls four times struck Sanchez in the back of the head, killing him almost instantly. He then walked to the door, and after looking in departed into the night without offering any explanation, although Baltierras, who was holding the dead man in his arms, called out to him. Sanchez was 35 years old and the father of two children.

When arrested, Trejillo admitted to the officers that he had shot into the tent, but refused to offer any explanation of his act. The youth is said to have a good reputation. Officers are investigating in an effort to learn if there had been an affair between Trujillo and Mrs. Sanchez.

The inquest was to have been held today, but was postponed until Monday on account of the inability of Coroner J. B. Hanna to reach Ontario.

Preliminary Announcement of Forthcoming Offering of Richfield-Union

NEXT Thursday morning we will publish in these columns an offering of the first securities which the undersigned California Corporation will dispose of to the public.

HOWEVER strongly the incorporators may personally feel that they have every justification for being enthused over what they may consider unusually bright prospects, they desire to make it plain at the very outset that this forthcoming offering will not be embellished with any extravagant words nor any strained effort be made to convince the readers of this newspaper that they are going to "lose the best opportunity of their lives" if they do not "rush in" and buy these securities.

THOSE methods are too frequently adopted by many oil companies at this time. We hope, therefore, to focus favorable public attention and to healthily build up firm investment convictions concerning "Richfield Union" from the very beginning by pursuing tactics exactly opposite from those whose forte it is to endeavor to mislead, to miseducate or to exaggerate.

THE purpose of this preliminary announcement, therefore, is merely to invite attention to our forthcoming offering of securities.

IF the presentation of our proposal is sufficiently straightforward to awaken a healthy interest in your mind; if you feel that we are proceeding along those conservative lines that should beget a fair, open-minded consideration, we shall have accomplished all we hope to do, until better acquaintance with every fact and a fuller confidence in our Corporation, its affairs, its properties and the integrity and attractiveness of its investment features justify you in joining us, in helping to make "Richfield Union" one of the strongest, most reputable and most profitable oil developing corporations in California.

WE have firm convictions along these lines and feel very positively that, by pursuing these methods, of a constructive, conservative educational nature, we shall more quickly attract and more indelibly impress a better class of investors, as our stockholders, and more firmly build a Corporation of which both the incorporators and their future fellow-stockholders may all be justly proud—to the mutual benefit and profit of all.

MAY we invite your especial attention, therefore, to our forthcoming offering next Thursday and bespeak for it a frank, open-minded investigation. Sincerely,

Richfield-Union Petroleum Co.

Residence on Lucerne boulevard for Robert O. Vredenburgh, designed by H. H. Whiteley; building to be erected on Spring street by T. Byron and Walter P. Story for local brokers; negotiations conducted by Metcalf & Ryan.

FACT AND COMMENT.

Hollywood, which on more than one occasion has shown itself to be a generation in advance of the parent community in civic pride, now proposes an improvement that promises not only to redound to its everlasting credit but also to establish that section of the metropolitan district as one of commanding beauty. One thousand Hollywood residents, forming the backbone of that section's civic, business and residential interests, have organized the Hollywood Memorial Park and Playground Association, which, as the name implies, was launched to create a group of parks and playgrounds—three marks of civic progress, garden spots of perpetual value and public interest.

The plan was organized by earnest men and women who are mindful of the fact that civic works too long deferred are either never realized or their fulfillment is accomplished at almost prohibitive cost. They do not intend to fall into this error, but have set about vigorously to create an assessment district and with a proposed fund of $700,000—which is by no means excessive with such objects in view—create at convenient points in Hollywood at least three, and possibly four, public park memorials. The sites proposed are the Boesmeyer tract, comprising about thirty-four acres, bounded by Sunset boulevard, Wilton place, Fountain avenue and Bronson avenue; the Evans tract of about twelve acres bounded by De Longpre, Formosa, Fountain and Fuller avenues, and the tract of about nineteen acres at Sanborn Junction, between Sunset and Santa Monica boulevards. These three tracts are designed to form a chain connected by Sunset boulevard, which, being one of the chief arteries of travel in that section, would make the parks accessible from all sides.

Not only is such a park plan—so vitally needed at this time—entitled to public commendation, but it has the merit of being in the interest of the whole community, although only a part of it will be asked to bear the cost. Moreover, it is entirely removed from real estate promotion, while its advantage to property within a wide radius is unquestioned. It will require a deal of work backed by civic devotion to put the plan through, but in the end we will all be gainers, and anyone enlisting in the ranks of its advocates will in reality be working for the community good.

Home Financing.

That an easier method of financing home building is imperatively needed to relieve the present housing situation is generally admitted by bankers conversant with this phase of finance. From certain quarters has come a demand for the establishment of a system of "home loan" banks similar to those created to handle farm loans, although even if this plan offered an easy solution to accomplish it would require the long-drawn-out process of approval by Congress, and in the meantime the demands of home finance are growing more pressing.

To a large extent local financial institutions organized to handle home-building loans have shown themselves sympathetic with the builder's wants and ready to make liberal advances on the basis of present building valuations. Although two or three months ago the banker's disposition was to base loans on a more or less inelastic interpretation of the financial risk, this attitude is rapidly undergoing a change which indicates that money for safe building loans will by no means be tight for a long time to come. While it is true that wild speculative building is being discouraged, it is equally true that legitimate home building is being made easier for both individuals and building companies—a fact which promises to keep building operations in full swing and aid materially in the solution of the present housing problem.

The City in Luck.

Los Angeles may consider itself exceedingly fortunate that it has had no serious building trades strike to handicap its building operations. In eastern cities pestered with strike troubles during September and October, a heavy loss both to business and building was recorded, not forgetting the tremendous public inconvenience due to the house and apartment shortage bitterly complained of in all the larger cities. In New York City, a hotbed of strike troubles, the building slump has been particularly marked, while in Boston, Philadelphia and Seattle, according to official reports, the September loss was heavy. Chicago operations, on the other hand, recorded a gain of from five to thirteen millions, due largely to the end of the building trades lockout which laid that city under the strain of a heavy loss for several weeks.

There is no logical reason why Los Angeles' building operations should not forge steadily along during the fall and winter and thus find the city next spring with building and financial gains not held by any other city in America. Building materials are coming to the local market in uninterrupted supply, building finance is more abundant and easier to obtain than has been so in several years, and the supply of skilled labor will increase as the winter advances and artisans are drawn to this section by the opportunity of continued work at good wages. While certain builders may have found their operations impeded by causes outside of their own making, there is very little to be pessimistic over in the present building outlook. Builders in this field have a golden opportunity within their grasp. Clear thinking and continued industry are needed to capitalize it.

WEST END TRACT.

Marlborough Square is New Subdivision Open for Homes.

Improvements will be started at once in connection with the subdivision of a tract in the Wilshire section at the end of the Sixth-street car line known as Marlborough Square, control of which has just been acquired by the Tracy E. Shoults Company, Hollywood realtors. The tract, which contains thirty acres, has been divided into large lots for immediate sale. It is north of Windsor Square and east of the new Wilshire Country Club, and has an unobstructed view of the mountains.

The improvements will include street work, sidewalk, sewers, water, gas and electricity, all of which will be done under city supervision. The lots are sold subject to a high-class bungalow building restriction.

Baingham; to Williams apartments for L. F. Applegate to Bertha M. Chappel, and the residence at 410 South Ardmore avenue to Katherine Stoepel.

READY NOW TO BUILD 'CHANGE.

Home for Stock Brokers will be Rushed.

Contract Let and Order Given to Begin Work.

Building is to be Ready by October Next.

Immediate steps will be taken to pave the way for the erection of the new Los Angeles Stock Exchange Building on the west side of Spring street, between Sixth and Seventh street, an improvement which has long been looked forward to by local stock brokers and bond men. The work of razing the present structures on the site, between the Union Oil and Realty Board buildings, will start on November 10, and the construction on the new thirteen-story building will be pushed rapidly as possible, with a view to its completion by October of next year.

The building will be erected jointly by T. Byron Story of Bozeman, Mont., and his brother, Walter P. Story, owner of the Story Building, Sixth and Broadway. It will be a class A fireproof structure containing 325 office rooms.

Practically two-thirds of the ground floor will be reserved for the local stock exchange quarters, the plan being to make them the most convenient and comfortable of the kind on the Pacific Coast. The site is 120 by 155 feet to an alley. A portion of the ground floor on Spring street will probably be occupied by two or three leading stock and bond houses, negotiations now being under way between Metcalf & Ryan, agents of the building, and these firms.

According to Metcalf & Ryan, about one-third of the upper office space has been leased, and it is expected that the rest will be taken before the building is completed. It is understood that Messrs. Story will later improve the remaining fifty feet of their property with a building adapted for banking purposes. The new building represents an investment in excess of $1,000,000. Plans were prepared by Morgan, Walls & Morgan. Weymouth Crowell, now erecting the new California Hotel on Wilshire boulevard, has the building contract.

UNIQUE HOME.

Hollywood Owner Building of Fire-proof Materials Only.

Unique among Los Angeles homes is the residence being erected for Col. D. W. Longwell, a retired army officer, at 7205 Hollywood boulevard. The structure is being built exclusively of fire-resisting materials, except for the hardwood floors and interior trim, and will be as nearly fire-proof as is possible. The owner's aim is to combine permanence with a maximum of safety. According to Elliet P. Parcher, who prepared the plans and is superintending the construction, this residence is the first of its kind to be erected here.

The house is a two-story structure containing twelve rooms and two bathrooms. The walls are of hollow tile on a concrete foundation, with sub-floors of concrete. The roof is of slate. Porches on both the first and second floor elevations are of concrete. There will also be a garage of similar construction. The estimated cost is $18,000. Advocates of hollow tile construction for homes are much interested in the progress of the new residence.

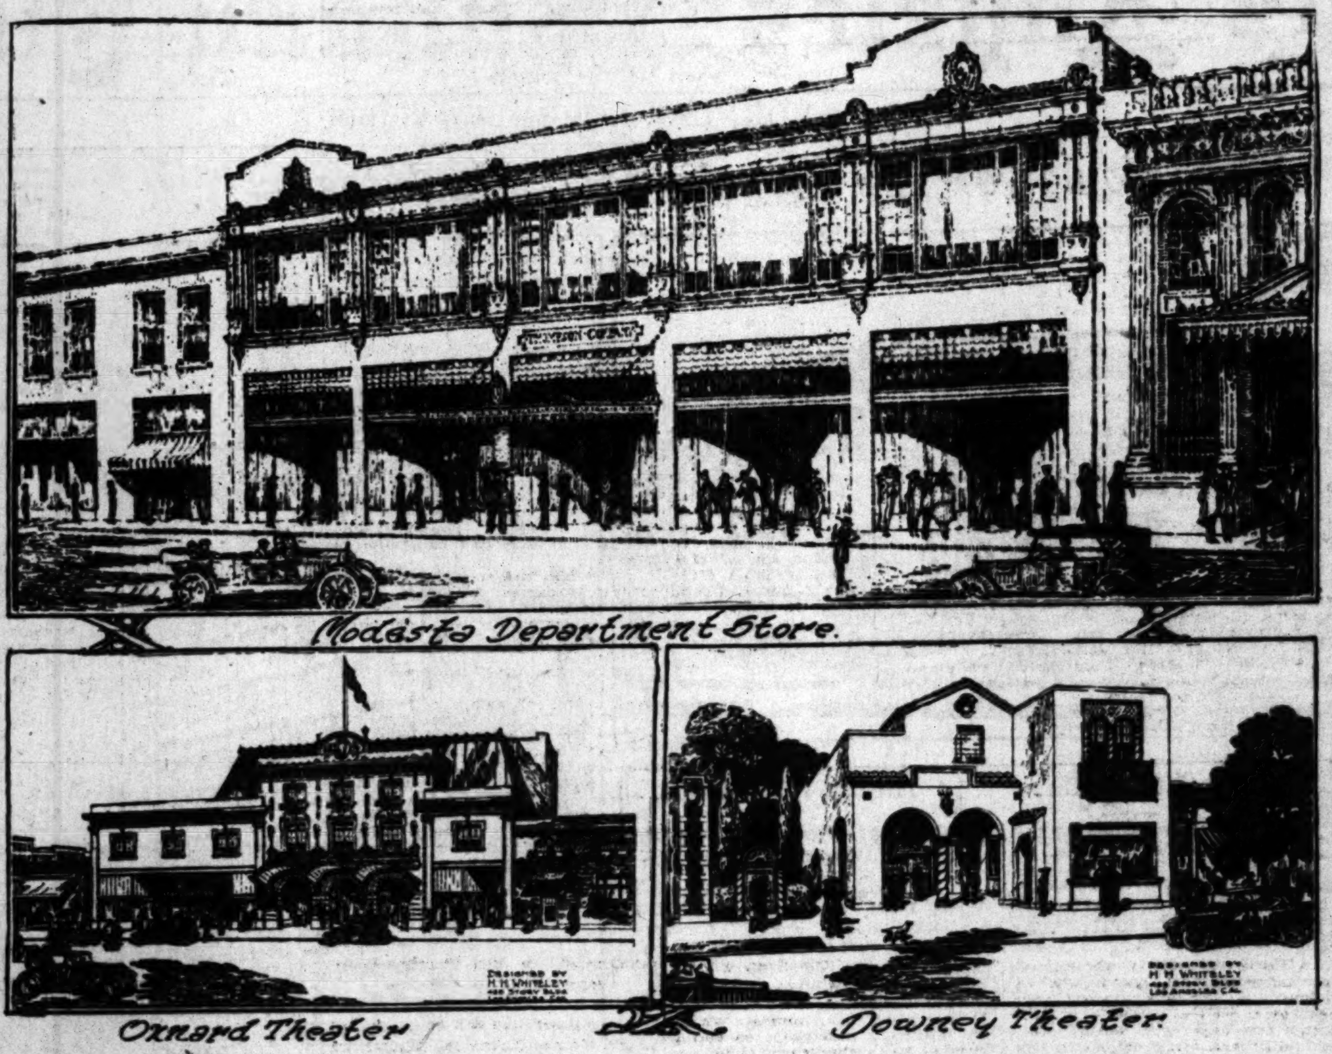
Structures for Other Cities Planned Here.



New department store building to be erected at Modesto, Walker & Elsen, architects; two new theater buildings, one for Oxnard and the other for Downey, designed by H. H. Whiteley.

OUTSIDE JOBS FOR LOCAL MEN.

Buildings in Other Fields Handled Here.

Architects and Builders Get Several Plums.

City's Importance Grows as Construction Center.

Los Angeles architects and builders are getting a considerable share of the building construction now going on in California cities outside of Los Angeles, as is indicated by reports from local offices. This fact is pointed to in proof of the statement recently made in a Chamber of Commerce report that the skill and office organization of local construction firms is being drawn on from the outside more than at any time in this city's history. Since early in the present building movement many important commissions have come to Los Angeles architectural and engineering firms from municipalities and private investors in more than a dozen cities, several outside of California.

A new building for the Thompson Department Store of Modesto, one of the largest enterprises in that part of the State, will soon be erected from plans prepared by Walker and Elson, local architects, who also designed the proposed new Whittier Hotel at Whittier. The details of organization and financing of the Thompson store have been handled by the Mead Company, also of Los Angeles, and much of the capital was supplied by local investors. All the fixtures for the store will be built by the Weber Show Case Company of this city.

The building is 100 by 100 feet, two stories with a mezzanine floor and basement. It will be finished in terra cotta. The total investment including building and fixtures represents from $80,000 to $100,000, according to the architects.

Two new theater buildings will soon be erected in near-by communities from plans prepared by H. H. Whiteley. One is for Mrs. Ana Holst at Oxnard. The building will seat 1200 and will cost approximately $75,000. It will adjoin the First National Bank in that city. The other is the theater to be erected for Hogan Willeford at Downey to cost approximately $12,000. It will be of the Spanish type of architecture, and will seat 275. Mr. Whiteley also prepared the plans for the home at Downey recently completed by Mr. Willeford at a cost of $40,000.

Preliminary plans are being prepared by Architects Montgomery and Nibecker for a home to be erected at Ogden, Utah, for P. T. Healey, a wealthy oil operator. The same architects are preparing a series of six designs for bungalow homes for a building company in Wheeling, W. Va. These homes will be modeled along the lines of Southern California bungalows, the material to be of brick and tile.

W. M. Bell, a local contractor, has the contract at $46,069 for the erection of a brick school building at Hermosa Beach. It will have four class rooms and an auditorium seating 700. Plans were prepared by Architect Herbert C. Howard.

A. L. Gribling of this city was awarded the contract for the erection of two brick grammar school buildings at Anaheim to cost $103,493. One structure will contain ten class rooms and the other three. Frank R. Schaefer and Elmore R. Jeffery, Los Angeles architects, prepared the plans.

Architect F. A. Noyes, Jr., has prepared plans for the erection of a new brick school building at Somerton, Ariz., near Yuma. It will cost approximately $30,000.

SEEK STOLEN JEWELS.

Police detectives today are searching local pawn shops for jewelry, valued at about $700 stolen from the windows of the Albert Babdat Jewelry Store, at 841 South Broadway early yesterday morning by a window-smashing burglar. The burglar used a large pieces of fly paper on the plate glass window and then threw a rock through it. The sticky flypaper prevented the glass from falling.

BUILDING GAINS.

Permits for six additional bungalows have been issued to the Los Angeles Investment Company at 1235 to 1245 West Seventy-seventh street, work on which will start immediately. The R. C. Mitchell Company has several homes under way at "Colonial Park," a new subdivision on Vine street, Hollywood, while the Chapman Company is completing four new residences on Mariposa street near Fourth street. LAW PROTECTS SMUGGLER CAR.

Government Unable to Seize Big Auto as Contraband it Bore was Human.

The Federal statutes, that have been the law since 1881, providing that automobiles or other carriers can be forfeited by the government only when they are used illegally to transport "merchandise," served yesterday to prevent seizure of the $7000 motor car used by Myer M. Morris, the confessed Chinese smuggler.

Numerous machines have been seized by the government, after carrying opium or other "merchandise," being brought illegally into the country, but the law does not apply to carrying human beings and there was nothing to do but release the machine.

SAYS HUSBAND WED OTHER WOMAN HERE.

COMMON-LAW WIFE SUES AFTER TWENTY-ONE YEARS TO UPHOLD MARRIAGE.

A separate maintenance suit yesterday by Lillian McNabb against Henry A. McNabb reveals the story of a common-law marriage, another woman who says she is Mrs. McNabb, and a plea for support from the alleged discarded one.

Lillian McNabb and Henry A. McNabb, according to the complaint, entered into an agreement in Denver, November 1, 1898, whereby they took each other for husband and wife. They lived together until May 1 last. On that date Mr. McNabb came to Los Angeles. He was absent an unusually long time. Finally Mrs. McNabb telephoned him.

Mr. McNabb said he was unavoidably detained, and would return soon. The same night, Mrs. McNabb said, she answered a long-distance call, and a woman told her she was the wife of Mr. McNabb, and that she had been married three weeks. The woman said she was formerly Mrs. Adele Lindenbaum.

Mr. McNabb returned to Denver, and when asked what this other woman meant, Mrs. McNabb alleges, he neither confirmed nor denied her story. After living together some time, Mrs. McNabb told, he was called to New York on business, but Mrs. McNabb believes he is in Los Angeles.

Mrs. McNabb asserts that under the Colorado law she is the legal wife of Mr. McNabb.

John W. Duple, whose alleged idiosyncrasy it was to use a spyglass in Westlake Park on spooning couples, called his wife, Anna L. Duple, on the phone one day, and according to her testimony in divorce proceedings in Judge Crail's court yesterday, he said:

"Say, old battle-ax."

Mrs. Duple broke down and cried.

"Did he explain what he meant by the term?" inquired the court.

"Yes. he said a battle-ax was a tough woman."

Mr. Duple was also prone to trail his wife's sister and keep his eye on the company she kept. The sister, who was a witness, said she objected to the espionage. The decree was granted Mrs. Duple.

BIG HOPES FOR NEW OIL FIELD.

Tremendous Yield Expected in Central Texas.

Wide Area is Believed Underlaid with Pools.

Wildcat Drilling Throughout State Increasing.

[SPECIAL CORRESPONDENCE.]

AUSTIN (Tex.) Oct. 27.—In substantiation of the theory of some oil geologists that practically all of Central West Texas, extending north and south for a length of 200 miles and probably running across Red River into Oklahoma, is underlaid with scattered pools of petroleum, the new well of the Kemp-Munger-Allen Oil Company, situated twenty miles from the Burkburnett field and eight miles southwest of Iowa Park, gives indications of being a producer. With the drill only inches in the oil sand and the well at a depth of about 1800 feet the oil shot over the derrick. It is conservatively estimated that the well in its incomplete condition is good for more than 1000 barrels a day. It is to be drilled further into the pay sand with a view of increasing production.

The Kemp-Munger-Allen Oil Company is a close and conservative corporation. It was organized by J. A. Kemp, a multimillionaire banker and manufacturer of Wichita Falls in order, it is said, that some of his close friends might have an opportunity of getting some excitement in the oil game. The company owns the lease on 500 acres of land upon which the discovery well is situated.

EXCITEMENT PREVAILS.

When news that a new pool of oil had been found spread around the wildest excitement on the part of oil operators and lease speculators ensued. Almost over night the price of leases within a radius of two or three miles of the new well advanced from $100 an acre to $3000 and even as high as $8000 an acre. In some instances farmers who had not leased their lands before the oil strike found themselves suddenly in the millionaire class.

Of course no one knows how extensive the new pool may be. Two pipe lines are being rushed into the prospective field in order to care for possible production. Storage tanks are also being erected. In anticipation of the new pool being placed upon a large producing stage in the near future, the present lease owners and petroleum interests generally have taken steps to prevent overproduction and overspeculation. It is proposed that no tract of land shall be divided into drilling sites of less than five acres each; that the exploitation of the new field shall be done systematically, with the view of maintaining production as long as possible.

Drilling in wildcat territory all over Texas is on the increase, rather than showing any signs of diminishment. In many cases where the first prospect-hole failed to develop production, they have moved their rigs to new locations in the same section and are going ahead, apparently full of confidence that their efforts will ultimately be crowned with success. In Pecos and other counties that are far removed from the existing fields, just enough traces of oil have been found in the wildcat wells to lure the sanguine operators into keeping up the search for pay sand.

NEW BOOM IS ON.

It is asserted by men who are well informed as to the progress of the oil industry that more big money is coming into Texas at this time for investment than at any time since the discovery well was brought in at Ranger. Corporations of capital stock ranging from $1,000,000 to $5,000,000 and upwards are being formed almost every day for the purpose of operating in the Texas fields. This capital is not coming from any particular source, it is stated.

Although many of the new companies and snydicates are composed of New York and Pennsylvania interests, enormous amounts of money are being put into the oil industry in this State by St. Louis, Indianapolis, Chicago, Cleveland, Akron, Kansas City, Omaha, Denver and Los Angeles men. Of course, Oklahoma is much more largely represented in these investments than any other State, probably not even excepting Texas.

One significant feature of the wonderful industry is that men who have money to invest are pouring into Texas from all parts of the United States. They are to be seen in the differnt oil towns, going about alone or in parties, making personal investigatons of the situation. It has come to pass that no careful and conservative investor is willing to put his money into a lease, well, or other oil holdings without first looking into the proposition personally. Of course, this does not apply to the large corporations that have trusted represenatives in the different fields and wildcat territory constantly looking out for bargains and keeping constantly in touch with the progress of events, so far as development operations are concerned.

300 WELLS READY.

According to advices received by the State Railroad Commission, there are more than 300 wells in the Burkburnett field, including the Northwest pool, down to pay-sand and ready to be brought in by means of a few more taps of the drill. Although two additional pipe lines are now serving that field it may be some time before complete relief is afforded the producers in the matter of providing sufficient transportation facilities for the output of their wells. It is stated that the proved potentialities of the Burkburnett field, to say nothing of the new pool which the Kemp-Munger-Allen Oil Company seems to have discovered, are enormous, and that there are no grounds for any pessimism that may exist as to the future supply of crude petroleum from that part of Texas.

In the Ranger, Desdemona and other deep-sand fields of Central West Texas, the salt water bugaboo has caused some uneasiness on the part of stockholders of some of the companies that are operating there. It is the expressed opinion of experienced oil men that salt water can be avoided by careful drilling. It has been demonstrated, it is said, that the water comes from below the oil sand.

Bad weather and muddy roads have interfered seriously with development operations in all the fields, but with a few weeks of good fall weather, drilling work will be given a big impetus.

Production of the Ranger field continues to show increase despite more or less adverse conditions. The Texas and Pacific Coal and Oil Company stands a chance to regain, in part at least, its former position as a heavy producer, as it is now drilling in territory that promises big results. Its earlier wells have fallen off very much in production, but in this respect they are no different from other wells of the deep sand territory. The Texas and Pacific Coal and Oil Company, as well as all the other larger operators own enough proved acreage to enable them to continue an active drilling campaign for several years to come.

SIPE SPRINGS ATTRACT.

The Sipe Springs, Breckenbridge and Newcastle localities continue to attract much attention of lease speculators and oil producers. The belief is general that in due time both these fields will become of much moment to the industry. In the territory extending to the south of Eastland county for 100 miles and having an average width of about seventy-five miles hundreds of wells are being drilled. Comparatively few of these holes are as yet down beyond 3000 feet, and for this reason hope is held out that several new pools may be discovered. The entire region is classed by geologists as being oil-bearing.

According to figures just compiled by the pipe line department of the State Railroad Commission from reports made to it by the several common carrier pipe line companies of Texas, these concerns had at total of 11,222,055 barrels crude petroleum in storage in this State on October 1. Of this quantity the companies owned 8,911,889 barrels and held for other producers 2,310,166 barrels, and had 5,695,932 barrels of storage unfilled. Orders have been placed for an enormous amount of steel material with which to erect additional tanks, it is announced, but it is uncertain as to whom deliveries of the material can be made. The steel strike is also affecting the filling of orders for material for new pipe lines.

In Hardeman county, about fourteen miles south of Quanah, the Old Colony Oil Company brought in a 544-barrel well at a depth of 2910 feet a few days ago. Several deep test wells are being drilled in that locality, and the indications point to the development of a paying field.

The recent striking of pay sand by the Roxana Petroleum Company in a well that is drilling in the Southern part of Young county is attracting attention, as it is believed to prove that the Ranger and Newcastle fields are connected.

TO ENLARGE REFINERIES.

It is announced by The Texas Company, which has its headquarters at Houston, that a part of the proceeds to be derived from the proposed increase of its capital stock from $85,000,000 to $130,000,000 will be used in enlarging its oil refineries and extending its oil development in Texas. The proposed increase of capital stock is to be authorized at a meeting of the stockholders to be held in Houston November 18.

The Texas Company was originally formed by the late John W. Gates. It took over part of the holdings in the Spindletop field of the late James S. Hogg, former Governor of this State, and associates. It has made millionaires of a number of Texas men. The company has grown rapidly until it is now one of the largest oil-producing, refining and marketing concerns in the world.

DE BAKER HEIR WEDS EX-OFFICER OF NAVY.

MRS. MARGARET G. WARD, THE BRIDE OF CAPT. MEL, NOW BUSINESS MAN HERE.

In a brief ceremony yesterday, Mrs. Margaret Gaffey Ward, one of the heirs of the estate of the late Mrs. Arcadia B. de Baker, became the bride of Capt. John Mel, formerly executive officer of the naval training station at San Pedro and vice-president of the Foss Construction Company. The ceremony was performed by Justice Summerfield in his courtroom at noon, only three acquaintances of the couple attending. Capt. Mel resides at Pasadena and Mrs. Mel formerly lived at San Pedro.

The marriage follows an acquaintance formed during the war, when Capt. Mel was stationed at San Pedro and his bride was managing the business at San Pedro of her father, John T. Gaffey. The former Mrs. Ward was given a divorce from her husband, Lieut. C. M. Ward, of the British navy, several months ago at Las Vegas, Nev. Lieut. Ward was her cousin and a son of Mrs. Dolores B. de Ward of Santa Monica. Mrs. Mel has a daughter, Sheila Henrietta Ward, 3 years old.

Both the present Mrs. Mel, who gave her age as 27, and her former husband are heirs to the estate of Mrs. Arcadia Bandini de Baker. Capt. Mel gave his age as 47.

Immediately after the marriage, Capt. and Mrs. Mel left for Santa Barbara.

CAN'T STOP BUILDING OF CHILDREN'S HOME.

ORDINANCE ASKED BY JAPANESE OPPONENTS COULDN'T BE ENFORCED, RULING.

City Attorney Burnell yesterday sent to the City Council an opinion that proposed legislation prohibiting the location or maintenance of children's or orphan's homes within the residence district, excepting those already established, could not be sustained and that the courts would rule it invalid.

The proposed ordinance was based on the protests of residents of the Micheltorena school district against the establishment of a Japanese children's home at 1843 Redcliffe street. Protestants appeared in large numbers at a hearing held in the City Council chamber and asked for the passage of the ordinance.

This protest, however, was not made until the Japanese had the frame erected for the proposed orphanage. So bitter was the feeling shown against the Japanese that the officers of the home stated they would be willing to withdraw from the neighborhood if they were reimbursed for payments already made on the property.

FORMER DINING CAR STEWARD RELEASED.

L. A. McKernan, formerly employed as a dining car steward by the Southern Pacific Railroad, charged with having embezzled $99.50, funds belonging to the company, was released on his own recognizance yesterday by United States Commissioner Long.

McKernan admitted that he was technically guilty as he had retained money belonging to the company, but said it was due him. He told a pitiful tale about being deserted by his wife, who had eloped with another man, leaving two children, aged 9 and 11 years, respectively, that he had been compelled to place in orphan asylums in this city.

WISCONSIN RESIDENTS ARE PICNIC GUESTS.

HUNDRED FORMER DANE COUNTY PEOPLE ATTEND BIRTHDAY PARTY AT SYCAMORE.

In celebration of his sixty-eighth birthday and as an advance Thanksgiving offering for the last eight years spent in Southern California, Col. Henry Freeman Danks, 4658 Hammel street, yesterday, at Sycamore Grove, spread a royal banquet for 100 of his old friends. Col. Danks had invited all former residents of his old home, Dane county, Wisconsin, and he expressed regret that all those invited could not be present.

Following the feast there was an oratorical contest in which nearly half the guests vied with one another in complimenting their smiling host. C. E. Parish acted as toastmaster.

Among the speakers were Col. Danks, Col. Frank H. True, president of the Wisconsin Association, and C. H. Parsons, secretary of the Federation of State Societies. Mr. Parsons invited the guests to attend the Wisconsin Old Home Week which will be held at Catalina, November 10 to 16, inclusive. Yesterday was "County Day" at Sycamore Grove, forty former residents of Miami county, Ohio, and as many from Salina county, Kansas, holding celebrations.

WOULD ISSUE BONDS.

Santa Monica to Vote on Proposed Civic Improvements.

[LOCAL CORRESPONDENCE.]

SANTA MONICA, Nov. 1.—Though the race for Commissioner of Public Safety will be the most exciting feature of the December election here, two important bond issues will appear on the ballot that are already creating some discussion. One of them, amounting to $225,000, provides for the acquisition of land from Fourth street to the ocean front, between Pico and Colorado, for park purposes.

The other issue is for $75,000 to provide water mains. Commissioner W. H. Carter, who is enthusiastically in favor of the plan for improvement of the water system, says:

"There never has been a shortage of water in Santa Monica, but small water mains have created a lack of water."

BUNGALOW LOTS

McNAIR PLACE.
$750.
$750.

McNair place extends from Gardner to Crescent avenue, having a half-mile frontage on Santa Monica blvd. Lots facing on such well-known streets as Crescent, Orange Grove, Friend, Genesee, Fulton, Stanley, Curson, Pacific and Gardner avenue.

The car line runs on Santa Monica blvd. Cars run to and from Los Angeles, Hollywood, Beverly Hills and the ocean.

Nowhere in Hollywood or Los Angeles can lots be had at these prices, adjoining as they do such excellent car service, and on a boulevard that is fast becoming one of the busiest thoroughfares in the northwest section of Los Angeles.

Fifteen or twenty fine bungalows are now under construction, with as many more to start immediately. Have you seen them?

Home builders and builders have been so attracted by our prices, street car service, wonderful view of the mountains and nearness to both a grammar and a high school that they are buying these lots in preference to lots in other sections in West Hollywood.

On November 1 the prices are to be raised 5 per cent. Present buyers are appreciating the advantage of a rising market.

These lots are going fast. Ruminate!

We will be glad to give you a map and

further information. Get in touch with us at once.

MARLBOROUGH SQUARE
IN THE
BEAUTIFUL WILSHIRE DISTRICT.

Your homeseeking problem solved by buying in this choice location. Many people have been looking for the right location to build a home, but have failed to find exactly what they want. If you are looking for such a location in a highly improved and restricted district, do not miss seeing this beautiful tract. It is situated sixty-seven feet higher than Wilshire blvd., on the Sixth street car line, within twenty minutes of Broadway. The surrounding property is also highly restricted and the Wilshire Country Club adjoins the tract to the west. Building operations will be started this week on a number of bungalows, and the restrictions are such as to insure the erection of homes that will meet the approval of the most exacting purchaser. Builders who are looking for a new location should look this over. Come out Sunday to the corner of Larchmont and Rosewood ave. It will pay you. Office open Sunday.

We know this because our experts, who have been developing almond orchards in the Paso Robles district for the past few years, have proven it to be a fact. These same experts will select your nursery stock, plant your trees, cultivate your ground and give your orchard the proper attention and will spare no expense to obtain the best results. We now own the land and we know that it is the very best in the Paso Robles district, containing all those properties necessary to the culture of the almond.
We take one-half the purchase price out of the crop. WE ABSOLUTELY GUARANTEE YOU A FULL STAND OF BEARING TREES and the Title Insurance and Trust Company of Los Angeles is custodian of the development fund.
If you are looking for a 100 per cent. investment and are willing to wait a few years without returns and then receive 100 per cent. returns, investigate who we are and what we have. We have an illustrated booklet explaining our plan in detail and we welcome investigation.

SUCCESS—
WHAT A COMPREHENSIVE WORD THAT IS.
Our idea of success is not measured entirely by money, but is a combination of Common Sense, Honesty, Courtesy, Consistency, and Perseverance, and when applied to business, failure is almost impossible. This firm has endeavored to apply those ideals to their business. The success we have achieved is immeasurable in dollars and cents, for, although we have been favored with possibly more than our share in this respect, we value most highly, the position we hold in regard to the public opinion. We are in business to handle the highest class of business investments available, and will positively not handle anything that does not come up to our idea, and only then when they are placed exclusively with us for a limited time. We are in a position to select the propositions we work on, thus enabling us to eliminate those undesirable ones, that would cause grief and annoyance to both ourselves and the purchaser. We are open at all times to consider the handling of any high-class meritorious business, and shall be glad to call on business concerns who may require our services. Below are a few of the best openings we have at the present time, all of which are worthy of earnest investigation.

A MODERN LAUNDRY PLANT located about two hundred miles from Los Angeles on the coast, in one of the very best cities in Southern California. This is a real business, it is clearing 30 per cent. on an investment of $18,000, it could not be replaced today for less than $22,000, you can buy this through us for just $16,500. The best reason in the world will be shown for its sale, come in and talk to us about this if you mean business.

Here is another—A-1 BUSINESS in the same vicinity, it is a high-class paint store, handling the best line of paints on the market. This business is clearing about $8000 a year, the investment is around $15,000, the local bank will probably loan five or six thousand on this if necessary, it is a most exceptional opportunity to get a chance to buy a business like this. This is a business man's proposition, others need not waste their time. Everything is open for thorough investigation.

A REAL MANUFACTURING BUSINESS in Los Angeles, the purchaser in this case must buy the real estate and building that the plant now occupies, but at the price we are offering it is a most attractive investment in itself. It is most probable that another manufacturer close by would buy all the real estate, leaving enough for this company to operate on. This business is clearing at the present time about $6000 a year, over and above a salary of $3600, for the two partners. The only reason for selling is the fact that these men are opening up in the same business in another part of the country in a very much larger way. It has been established nine years, the customers are the largest concerns in the country, and the books are open for any business man to take his own accountant in and investigate, if he will show us he has the money and means business. It will require from $15,000 to $20,000 to handle this.

An EXCLUSIVE TOY STORE in the city, an exceptional buy at $7500.

A STATIONERY and MUSIC STORE, in the suburbs, $5000.

A CONFECTIONERY STORE in the suburbs, the best we know of for $4500.

A LUNCH COUNTER in the city, clearing $800 a month, $3500. Don't dispute this statement, if you have the money we'll satisfy you that this is true.

A FEED and FUEL BUSINESS in the city, $3000.

A CABINET and REPAIR SHOP, more work than the owner can attend to, $1000.

This is your opportunity to become connected with a reliable firm and be assured of a nice income for a small investment. Proposition will stand rigid investigation. If you can't invest at least the above amount please don't answer. Address Z, box 156, TIMES OFFICE.
